

# Celebrate National County Government Month

**Did You Know Douglas County Environmental Services provided the majority of storm water grant funds for one of the metro areas first "green roofs" on the Saddlebrook Joint Use Facility in northwest Omaha?**

**Did You Know Douglas County Environmental Services is leading the way by installing various "green infrastructure" on the Health Center campus to reduce the volume of stormwater entering the combined sewer system and contributing to overflow events that pollute the area's streams?**

**Did You Now Douglas County Environmental Services supervised the processing of more than 430 million cubic feet of landfill gas through the landfill gas recovery system at the former State Street landfill?**

**Did You Know Douglas County-Environmental Services manages the Pheasant Point Landfill where nearly 486,000 tons of solid waste was disposed of during the past year?**
